

## EuroTier 2024 – Review

*EuroTier, the world's leading trade fair for professional animal husbandry, is a driver of innovation and a source of ideas for global livestock farming.*

*2193 exhibitors from 51 countries presented their innovations and further developments for modern agricultural practice worldwide.*

*120,000 visitors from well over 149 countries took advantage of the unique information offered by EuroTier 2024. – DLG Press Service*

**We would like to thank all customers and interested parties for their visit to the EuroTier in Hanover.**

The exhibition showed us more than ever how important it is to provide profitable, sustainable solutions for animal husbandry, grassland management and arable farming.

PLOCHER sales partners from the Baltic States, Poland, France, Austria, Ireland, Great Britain and Germany had a lively exchange on the use of PLOCHER products

The compost box clearly showed how farm manure is aerobically processed with PLOCHER compost additives becomes the "farmer's gold" even starting in the stable!

A video together with Soilify "A Heart for Soils" has been made and we are already looking forward to the result ...

**In 2025 we will celebrate 45 years of PLOCHER!**

You did not have time to come to EuroTier?

We will be happy to send you our detailed agricultural catalogue with product descriptions, application recommendations, practical experience reports and scientific results.
